Applicant Signature \_\_\_\_\_

A health insurance policy covers medical expenses for illnesses or injuries. A reliable health insurance plan protects you from sudden medical expenses. It reimburses your bills or pays the medical care provider directly on your behalf. A comprehensive medical insurance covers the cost of hospitalization, daycare procedures, medical care at home (domiciliary hospitalization), ambulance charges, amongst others.

A life insurance plan is a contract between an insurance policyholder and an insurance company, where the insurer promises to pay a sum of money in exchange for a premium after a set period or upon the death of an insured person. Life insurance offers you and your family financial protection. Some policies also offer optional add-ons, such as critical illness benefit, accidental death benefit, and more.
